ABUS Key Garages

The ABUS Key Garage is a great way to safely store keys and other valuables. The large internal space means you can easily store house keys, car keys, prox cards and fobs in the one large compartment.

Key Garages are available in either a wall mounted version or a padlock version, and there is a choice of either a push button or dial style combination mechanism, allowing the end user to choose and set their own code.

The KG777 doubles as an automotive unit with the addition of the KG777AD automotive adaptor, allowing the unit to attach to the vehicle over a window.

There is also a mini Key Garage available that will hold three to four household keys. The KG737 is supplied in a padlock version only.

ABUS - The good feeling of security

Security Tech Germany

KG747 & KG757

Large capacity key garages, with push button style mechanisms

KG747

Features

KG737

A compact padlock style key garage

KG737

This portable unit has a solid metal housing which provides a good level of security. A vinyl coated shackle and back provide surface protection from scratches.

The unit will hold up to six (6) household keys.

The KG737 is unique as it requires two combinations – one to release the shackle and a different code to open the storage combination. Both codes need to be set by the end user.

Features

- Padlock type
- Compact size
- Resettable dial mechanism with two codes
- Hinged drop down door
- Rubber coated steel body
- Vinyl coated steel shackle
- Box measures: 95mm high x 65mm wide x 30mm deep

Security Tech Germany

- Hinged drop down door
- Full protective dust cover
- Vinyl coated steel shackle
- Rubber coated steel body
- Vertical shackle clearance of 45mm
- Box measures: 95mm high x 65mm wide x 45mm deep

ABUS - The good feeling of security

KG777

Auto adaptor

A stainless steel adaptor that fits in the place of the KG777 shackle, allowing the unit to be attached to a motor vehicle door window.

Domestic security is the traditional domain of ABUS for giving people "the good feeling of security". The years spent being a market inovator in security can be seen in the retail padlocks shown in this guide.
